Looking beyond the possibility

We, at Poonam Fibre Industries, always strive to cross milestones of excellence through continuous research & development, consumer insights and trendspotting. This habit of looking beyond possibility has made us a leading name in FRP products today. With a diehard commitment for quality, and passion for consumer delight, the brand POONAM has won many accolades for its product, services and innovation that underlines our recognition as a company that moves ahead of its time. With an exponential growth plan in action, POONAM FIBRE INDUSTRIES has embarked on a mission to deliver our clients to the doors of absolute satisfaction.

FRP DOORS : Enhancing your ambience, every moment

Looking at the depleting green cover on the planet, it is undoubtedly a better choice to opt for FRP (Fibre-reinforced Polymer) Doors that not only give you an eco-friendly solution but also enhances the total ambience with its stunning colors, precision engineering and wider variety of choice in terms of designs, sizes and styles. POONAM FRP Doors are pre-loaded with high quality raw material and are manufactured under stringent quality control at our most modern manufacturing set-up. Each product that goes out to the market is rigorously tested so that they are durable, maintenance-free, pest proof and 100% waterproof. FRP Doors are crafted to give you freedom from everyday hassles of door jamming, repainting and decay during rainy day. FRP doors are best suitable for bathrooms and terraces, porches or backyard gates as against traditional doors. They can also be painted to match your décor benchmarks and readily available in flush door (texture finish)
